

# ECSU Power Forward: Current Target Building Power Outage Dates

Last Update: 9/30/2024

Please Note: All of the dates listed below are subject to change due to weather or unforeseen circumstances. Outage durations may vary. The Power Forward Project team will update this spreadsheet when project conditions necessitate adjustments to any of the target dates. Each building will have primary target dates and backup target dates. Backup dates will be utilized if weather or other circumstances make the primary date infeasible. As the outage dates approach, members of the project team will contact building liaisons to coordinate specific details of the outage, including exact target durations and start/finish times of the outage. If you any questions, please contact the project team.

Phase	Buildings	Primary Target Outage Dates		Backup Target Outage Dates		Notes/Status
		Start	End	Start	End	
	Bias Hall					
	Burnim Fine Arts Center					
	Butler Hall					
	Central Utility Plant
