

ELIZABETH CITY STATE UNIVERSITY
Class Attendance Policy

Class Attendance

Regular class attendance is a key determinant of student success. It also is an important factor in a student's commitment to the transfer of knowledge. For that reason, each student should recognize the benefits of regular class attendance, and embrace such as a personal charge. It is a student's responsibility to complete all coursework, including tests, and written assignments of all class meetings. University faculty members are encouraged to monitor the progress and activity of their students.

Student's Responsibility

1. To understand and adhere to an instructor's expectations for course participation and satisfactory course completion. Students must also monitor their progress throughout the term.

The Instructor's Responsibility

1. To establish and communicate how students' progress and activity will be monitored.
2. Publish course expectations in course syllabi at the beginning of each term.
